

## Restore House Inc. Application Read Me

We at Restore House know every one is different and that every one likes different things, for example, different web browser and pdf viewers. Not all programs work the same way, so here are some methods that are known to work if for some reason your set up does not like our forms:

*Windows, Mac or Linux users:*

### For Electronically Signing and Emailing

I recommend [downloading the application](#) and then opening it with either Adobe Reader or Preview. From either one you should be able to fill it out, electronically sign it and email it to [restor@paulbunyan.net](mailto:restor@paulbunyan.net).

### For Faxing, Mailing or Hand Delivery

I recommend using Google Chrome to [download/open the application](#), you should be able to fill out the app right from the browser and then print it by pushing the the print button on the lower right hand side of the screen.

Once printed you can sign and deliver in the manner of your choosing

If you don't get the popup you can push ctr/p on Windows or command/p on Mac to get to the print menu.

### CAUTION:

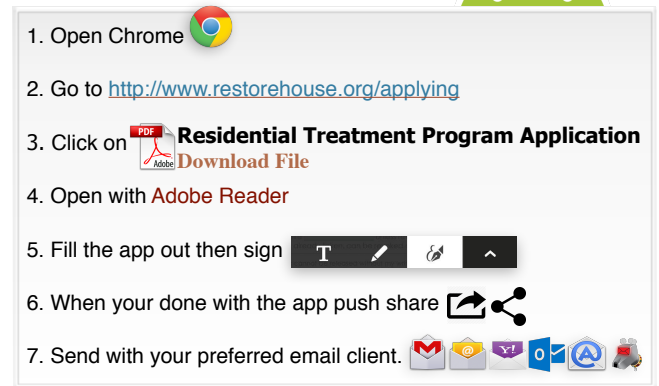

If you fill out the app on the chrome browser and then push the save button it'll only save a blank copy of the app and you could lose your progress.

*Android:*

### For Electronically Signing and Emailing

On Android I recommend using Adobe Reader, you may need to download it from the Google Play Store.

From Adobe Reader you can fill out the app, electronically sign the app and email it to [restor@paulbunyan.net](mailto:restor@paulbunyan.net).

*IOS (iPhone iPad and iPod touch):*

### For Electronically Signing and Emailing

On IOS I recommend using Adobe Reader, you may need to download it from the Apple App Store.

From Adobe Reader you can fill out the app, electronically sign the app and email it to [restor@paulbunyan.net](mailto:restor@paulbunyan.net).
