

PURPOSE

The purpose of the Restore House program is to provide the means for our clients to become productive, sober members of society. Further it is our purpose to benefit society by identifying, developing and supporting each client's innate talents and abilities.

TARGET POPULATION

The target population for Restore House are individuals who have completed a Rule 25 and are recommended for high (30 hours per/week) or medium (15 hours per/week) intensity residential chemical dependency treatment.

He has sent us to bind up the brokenhearted, to proclaim freedom for the captives, & release from darkness for the prisoners.

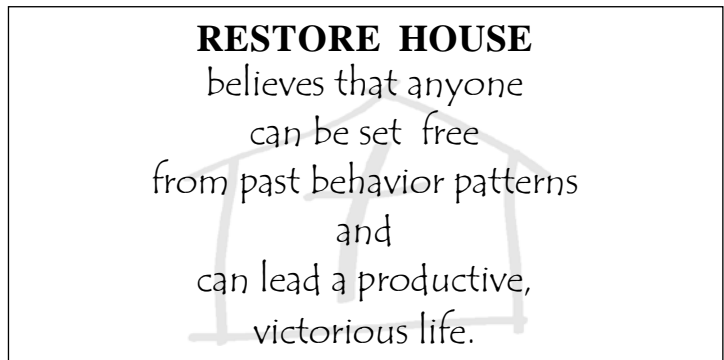

Isaiah 61: 1b

Restore House Inc is licensed by the Minnesota Department of Human Services as a Rule 31 Residential Chemical Dependency Treatment Program. As such, Restore House Inc offers two levels of treatment. High Intensity (commonly known as in-patient) with 30 treatment hours per week per resident and Medium Intensity with 15 treatment hours per week per resident.

GOALS

1. To improve the quality of life for chemically dependent individuals by assisting them in the ability to make appropriate decisions regarding chemical use.
2. To expand network of referrals with Restore House Inc. to other community based provider's that may benefit clients.
3. To provide a comfortable, chemical and harassment free environment for clients and staff.
4. To keep program goals, services, and objectives consistent with client needs.

Restore House Inc utilizes a progressive, 3-phase program. While some components of the program are common to all levels, the basic principle is to teach that with increased freedom comes increased responsibility and accountability. The goal is for clients to be prepared to live a sober, productive lifestyle upon completion of the program.

TYPES OF SERVICES

The overall program of treatment at Restore House Inc. is both structured enough to keep clients focused on their goals and flexible enough to take the needs of the individual into consideration. Restore House Inc. treatment policies consider cultural difference when working with clients
